

### ***Important notes about eScrip:***

In order for the Online Mall purchases to track for eScrip, supporters **must either go through the eScrip website** (not directly to the merchant website), or download AutoEarn before going directly to a merchant's website to shop. You will find a link to download AutoEarn when you access the Online Mall web portal. There are links to the Online Mall throughout the eScrip website. AutoEarn allows you to go directly to most Online Mall merchant's websites and shop. In order to earn contributions with AutoEarn you will need to click on the pop-up box.

**Please note that Amazon.com does not track through AutoEarn.**

You must access merchant websites by first going to [www.escrip.com](http://www.escrip.com) and selecting an Online Mall link. Some merchants will not pay contributions if you participate in special price promotions and/or use discount coupons. Promotions used while checking out at Amazon will invalidate eScrip contributions (except free shipping).

You will find that some Online Mall transactions show up more quickly than others. Unlike eScrip retail shopping program purchases, Online Mall program purchases are tracked and contribution payments are made by the merchant in accordance with the merchant's internal policies. Some merchants pay quarterly, others semi annually, and some make payment once a year. Purchases will show up on monthly reports within 60 days from when eScrip receives payment from the online merchant.
